

RYYAN CHAROLIA

Missouri city 77459 • (346)-350-1866 • ryyancharolia1@gmail.com

OBJECTIVE

I am an enthusiastic international student of computer science who is passionate about Technology and problem-solving. I am seeking an internship opportunity in an IT field to gain practical experience, expand my skill set and contribute to the company while working alongside professionals in a dynamic and innovative environment. I am eager to apply my coursework to real world projects and learn from mentors to further develop my career aspiration in the field of Technology.

EDUCATION AND PROJECTS

Personal Projects

Amazon Clone Website (Front-end)

- Build an Amazon clone website using Frontend skills like Html and CSS. Used accurate measurements and color combination to make it look exact used more of {flex container} and {div} in the project.

Expense Tracker

- Create python code which helps the user to track and categorize the monthly expenses and help to create a budget for that month which also reduces manual data entry.

Simple Bank Application

- Transaction program where after login the user can perform a few operations like Deposit, Transfer money and Print receipt.
